Approval

Policy Owner	Finance and Human Resources
Approving Authority	Chief Financial Officer
Approval Status	Approved for use effective 1 January 2026.

1. Purpose

This policy sets standards for travel undertaken on behalf of the Company. It is intended to ensure that business travel is necessary, reasonable, appropriately approved, and managed with due regard to employee safety and Company cost controls.

2. Scope

This policy applies to employees travelling for Company business, including client meetings, conferences, training, project activities, and other approved business purposes.

3. Business Purpose and Approval

Business travel must have a legitimate business purpose and appropriate management approval. Employees should use practical and economical travel arrangements that meet the requirements of the assignment.

4. Air Travel

Economy class is the standard for business airfare. Premium economy, business class, or other upgraded travel requires documented exception approval based on business need, travel duration, or another approved circumstance.

Airfare must be booked through an approved channel where one is available. The Company will reimburse approved economy-class airfare at the actual fare, subject to the Expense Reimbursement Policy and required receipts.

5. Accommodation

Employees should select safe, reasonably priced accommodation suitable for the business purpose and travel location. The standard reimbursement ceiling is IDR 1,500,000 per night. Any amount above this ceiling requires documented exception approval.

6. Ground Transportation

Reasonable local transportation required for business travel may be reimbursed. Local transport is subject to a maximum of IDR 300,000 per transaction, while parking and tolls are subject to a maximum of IDR 250,000 per transaction.

7. Meals and Incidental Expenses

Reasonable business-travel meals are reimbursable up to IDR 500,000 per transaction under the Expense Reimbursement Policy. Alcohol, personal entertainment, and expenses for accompanying family members are not reimbursable.

8. Business Travel Conduct

- Employees must conduct themselves in accordance with Company standards while travelling on business.
- Company information, devices, credentials, and confidential material must be protected while travelling.
- Employees must comply with applicable immigration, safety, and security requirements for the destination.

9. Expense Claims

Travel expenses must be claimed in accordance with the Business Expense Reimbursement Policy. Receipts are required, and the claimant must provide sufficient information to establish the business purpose and date of the expense.

10. Exceptions

Exceptions to travel class, accommodation limits, or other stated standards require documented approval from the appropriate authority. Exceptions should be obtained before the expense is incurred whenever reasonably practicable.

11. Responsibilities

- Employees are responsible for reasonable travel planning, personal safety, and complete expense documentation.
- Managers are responsible for confirming the business need and appropriate level of travel expenditure.
- Finance is responsible for reimbursement controls and financial review of travel-related claims.

12. Interaction with Other Policies

This policy governs the business-travel context. Specific reimbursement amounts and documentation requirements are governed by the Business Expense Reimbursement Policy, including the category limits stated in that policy.
